# HELLO, MY NAME IS KENNY!

I'm here to show you  
how to make friends  
in AltspaceVR!

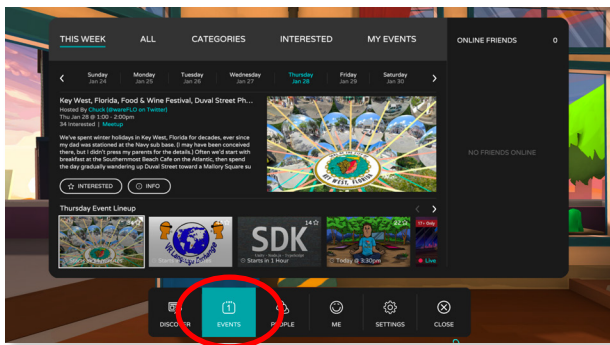

# MAKE FRIENDS

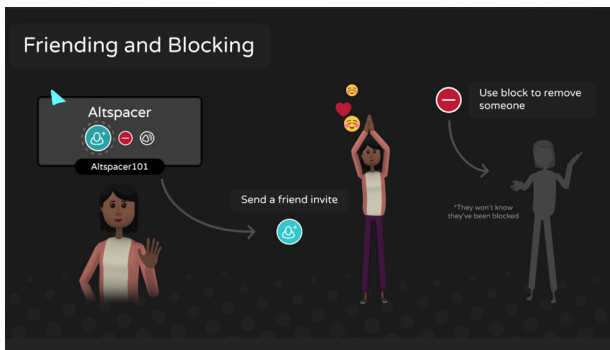

Let's learn how to find events and message someone!

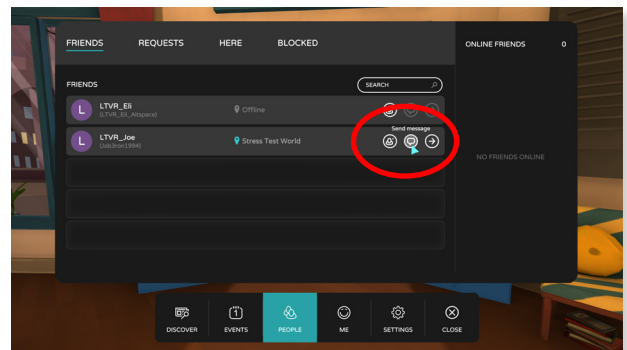

1. Open the menu and click on events. Here, you'll find tons of community hosted events for all kinds of people and interests.

2. To add a friend, navigate to the people section at the bottom. Search for their username in the search bar or by clicking on the "Add Friend" button above someone's head.

3. You can send a message to or invite a friend by using the message bubble next to their name, just like this. Click on the "Come Visit" option to send an invitation to your location.
